Letter from the Editor
About a life, love, and a legacy  Terry A. Messmer..........................................................2
Associate Editors.......................................................................................................................3

In the News
Jason Matthews and Joe N. Caudell..........................................................................................6

Peer-Reviewed Articles
Inventory of wildlife use of mortality pits as feeding sites:
implications of pathogen exposure  Jeremy W. Ellis,
Susan A. Shriner, Hailey E. McLean, Lauren Petersen, and
J. Jeffrey Root..........................................................8

Genetic sequencing using 16S rRNA for pathogen identification
in retropharyngeal lymph nodes from wild elk  David J. Wilson
and Jacqueline P. Kurz...........................................19

Impact locations and damage to civil and military rotary-wing
aircraft from wildlife strikes  Brian E. Washburn,
Paul J. Cisar, and Travis L. DeVault.................................23

Positive bias in bird strikes to engines on left side of aircraft
Richard A. Dolbeer and William J. Barnes......................................................33

Patterns of crop raiding by wild ungulates and elephants in
Ramnagar Forest Division, Uttarakhand  Ankur Kumar,
Harendra Singh Bargali, Ashish David, and Advait Edgaonkar...............41

Comparing urban and wildland bear densities with a
DNA-based capture-mark-recapture approach
Jonathan L. Fusaro, Mary M. Conner, Michael R. Conover,
Timothy J. Taylor, Marc W. Kenyon, Jr., Jamie R. Sherman, and
Holly B. Ernest..................................................50

Best management practices in counting urban black bears
Jonathan L. Fusaro, Mary M. Conner, Michael R. Conover,
Timothy J. Taylor, and Marc W. Kenyon, Jr.........................................................64

Public geospatial datasets as an approach to maximizing efficiency
in the collection of site covariates in wildlife–vehicle collision
studies  James A. Vance, Walter H. Smith, and Gabrielle L. Smith..............78

Effects of human state park visitation rates on escape behavior
of white-tailed deer  Nicholas M. Sutton and Edward J. Heske.................86

Human-Wildlife Interactions

Human-Wildlife Interactions (ISSN 2155-3858) is a peer-reviewed journal published three times per year by the Jack H. Berryman Institute, Department of Wildland Resources, Utah State University, Logan, UT 84322-5230, USA. The journal has over 1,000 subscribers, and an open-access version is available at digitalcommons.usu.edu/hwi. Prior to 2010, the journal was named Human–Wildlife Conflicts.

©2017 Jack H. Berryman Institute. Material appearing in Human–Wildlife Interactions may not be reproduced in any form without the written consent of the publisher. The views expressed in Human–Wildlife Interactions are not necessarily those of the publisher.

Editor-in-Chief: Dr. Terry A. Messmer
Managing Editor: Rosanna Vail

Editorial Board (Associate Editors):
- Dr. James C. Beasley, University of Georgia, Athens, Georgia
- Dr. Jeffrey Beck, University of Wyoming, Laramie, Wyoming
- Dr. Michael Chamberlain, University of Georgia, Athens, Georgia
- Dr. Alan Clark, Utah Department of Natural Resources, Salt Lake City, Utah
- Dr. Larry Clark, APHIS, Fort Collins, Colorado
- Dr. Michael R. Conover, Utah State University, Logan, Utah
- Dr. Richard M. DeVault, Wildlife Services National Wildlife Research Center, Sandusky, Ohio
- Dr. S. Nicole Frey, Southern Utah University, Cedar City, Utah
- Dr. Michael Guttery, Alaska Department of Fish and Game, Juneau, Alaska
- Dr. Bruce Leopold, Mississippi State University, Starkville, Mississippi
- Dr. Giovanna Massei, National Wildlife Management Centre, York, UK
- Dr. Jonathan Mawdsley, Association of Fish and Wildlife Agencies, Washington, DC
- Dr. Desley Whisson, Deakin University, Burwood, Victoria, Australia

Journal Subject Area: Human–Wildlife Interactions publishes manuscripts on all aspects of human–wildlife interactions, particularly research articles in the areas of wildlife management, wildlife ecology, management applications, economics, and human dimensions. Additionally, we encourage brief articles in the categories of letters to the editor, opinion pieces, point-counterpoint articles, policy issues, and notes on research and new techniques.

How to Submit Manuscripts: Contributors should submit manuscripts through the online submission portal at digitalcommons.usu.edu/hwi. The policy of Human–Wildlife Interactions is to require authors to cover page charges at the rate of $100 per printed page (about 2.5 double-spaced manuscript pages will fit on one printed page). The charges allow HWI to operate. Detailed submission guidelines are available on the submission website.

Who Should Submit Manuscripts: Anyone is welcome to submit a manuscript, particularly those working in operations or with practical field experience in wildlife management. View article categories and submit manuscripts at digitalcommons.usu.edu/hwi. Email hwi@usu.edu with inquiries about manuscript scope or the submission process.

Subscriptions: $30 per year, domestic; $60 foreign. Back issues are $10 each, domestic; $20 each, foreign. Make check payable to Berryman Institute and send to Human–Wildlife Interactions, Berryman Institute, Department of Wildland Resources, Box 5230, Utah State University, Logan, UT 84322-5230 USA. Foreign subscriptions: USD by bank transfer only. For details, contact the Finance/Account Manager, Rae Ann Hart, at raeanh.hart@usu.edu.

Advertisements: Human–Wildlife Interactions accepts half- and full-page advertisements. For more information, contact the Finance/Account Manager, Rae Ann Hart, at raeanh.hart@usu.edu.

Articles appearing in Human–Wildlife Interactions are included in the following research indexes: Animal Behavior Abstracts, Aquatic Sciences and Fisheries Abstracts, Biological Abstracts, BIOSIS Previews, Current Contents, EBSCO, Ecology Abstracts, SCOPUS, Science Citation Index Expanded, Thomson Reuters’ Journal Citation Reports, Web of Science, Web of Knowledge, Wildlife and Ecology Studies Worldwide, Wildlife Review Abstracts, Wilson’s Biological and Agricultural Index, and Zoological Record.
